

Amendments to the Specification:

Please replace the paragraph beginning at page 18, line 18 with the following amended paragraph:

These methods enable the methods for constructing scDb libraries of the present invention to be applied to the preparation of monospecific diabodies. For example, when phage libraries are constructed, two BamHI sites (underlined) can be designed within the linker, as below:

GlyGlyGlyGlySerGlyGlyGlyGlySerGlyGlyGlyGlySerGlyGlyGlyGlySer (~~SEQ ID NO: 3~~ SEQ ID NO: 4)

GGTGGTGGT**GGATCC**GGTGGTGGTGGTCTGGCGGCGGCGGCTCCGAGGTGGTGG  
ATCC (~~SEQ ID NO: 4~~ SEQ ID NO: 3)
